4. Tournament Structure & Format

Phase I: National Qualifiers

- **Portal-Specific Entry:** Teams must register via their specific country portal on the official AFC website.
- **Regional Integrity:** Team nationality is determined by player IP addresses (Majority Rule). If tied, the owner's country is used. This prevents "region-hopping" and ensures fair representation.

Phase II: Semi-Finals (Round of 18)

The 18 qualified teams are split into three groups (**A, B, and C**) with 6 teams each. Matches follow a rotating round-robin format:

- **Day 1:** Group A + Group B
- **Day 2:** Group A + Group C
- **Day 3:** Group B + Group C

- **Progression:** Results are consolidated into a single overall leaderboard. The **Top 12 teams** qualify for the Grand Finals.

Phase III: Grand Finals (Champion Rush)

The finals use the **Champion Rush** mode (Maximum of 8 maps):

- **Point Threshold:** 80 Points.
- **Winning Condition:** Once a team reaches 80 points, they become "Eligible to Win." The first eligible team to secure a **Booyah** (1st place in a match) is crowned the Champion, regardless of whether they have the highest total points.
